	Colony	Pays management + performance fees	Management + performance fees	Revenue sources directly retained by the protocol include 50% from CAI fees (minting 0.20%, redemption 0.5%, and management 1%), 2% from early-stage platform activities (ceTokens distribution), 2% from USDC fundraised by a project, 16.66% from Colony DEX swap fees, and 30% from Validator Program activities. These funds support the protocol's ongoing development and operations.	unstaking fees, 50% of CAI fees, 8% of early-stage activity fees (ceTokens), and 70% of Validator Program activity revenues. This distribution creates a strong APY for CLY stakers, incentivizing protocol staking and	83.33% of the fees collected from Colony DEX transactions are distributed to liquidity providers. Additionally, 10% of ceTokens are distributed to staked liquidity providers on Colony's DEX, incentivizing them to continue providing liquidity and supporting the exchange. Additional revenue can be generated through farm rewards based on specific marketing campaigns and incentive programs.
